We do

MediClaims will assure full financial reimbursement, which the client is legally entitled to for service provided to patient, while maintaining the highest levels of integrity, compliance and ethics. We can work with any billing software which the client is presently using or prefers to deal with. We will work towards improving the practices revenue, at a fraction of the cost for performing the medical billing function in house. We aim to be the best outsourcing agency in our business. MediClaims adheres to governmental regulations and policy guidelines to ensure nothing but the best in medical billing procedures.

Pricing structure

Our pricing structure is very competitive and varies based on the size, specialty and client specific requirements.

Please fill out the form on our website for a custom quote or contact our sales to know more about it.

Follow through

While other medical billing services make only a few attempts to collect receivables, MediClaims billing services will make every attempt to collect payments from insurance companies.

Specialization

We stay abreast of CPT and ICD-9/10 coding changes with certified coding specialists. We provide advice on maximizing your billing potential for treatments and procedures as we identify such opportunities. We also re-negotiate contracts with payers for higher reimbursements.

We focus on making start up easy for you and taking the burden of reimbursement off from you and your staff.

Medical Billing Software

We work on all leading and custom medical billing softwares and specialize in:

... also work with other softwares ensuring you don't need to switch.

Experience

Our staff has over 20 years of experience in the healthcare field. We serve almost all the major specialties. The variety of specialties we provide requires knowledge of modifier usage, global billing periods, Medicare and Medicaid rules. It is necessary for our staff to continuously update their education in order to stay updated. We are dedicated to truly knowing and staying upfront with the ever changing rules and regulations.

Accuracy

We invest in only state of the art practice management software in the medical billing industry which employs a system of checks and balances to ensure the highest degree of claim accuracy.

HIPAA Compliance

Everything is done to keep up and comply with the HIPAA regulations. As an additional service to our clients with their compliance efforts. We are constantly attending seminars in regards to HIPAA in an effort to stay compliant. This will always be an aspect of the business that will continuously evolve. We intend to evolve with it!
